OAK INTERNATIONAL CHRISTIAN SCHOOL: Learner Today, Leader Tomorrow

Oak International Christian School is a private Christian school raising outstanding leaders through the Accelerated Christian Curriculum and other programs.

We seek to provide an educational experience that will nurture an outstanding leader

Our Goal – God-fearing, dependable, transformational leaders in any sphere of society.

Quotes for slides/photos:

“Everything rises and falls on leadership”; “Leadership is one life influencing another” – John. C. Maxwell

"Christian character and Biblical principles are an important part of our educational philosophy”

"Discover a personalised, mastery-based Christian learning environment."

"Learners have structured goals that allow them to progress according to their learning needs while grooming them to stand out in society."

“We are training leaders - first for today, and then, tomorrow.”

3. **Academics**

We use the Accelerated Christian Education curriculum (ACE), which places strong emphasis on individualised learning, mastery, goal-setting and Christian character development. Our

system allows the school to identify the learner's current academic level and provide appropriate learning goals and support.

Grade Levels:

Step by Step (3 years) - This level presents an introduction to school environment and increases independence for the little ones. It gives them a strong foundation for preschool.

Preschool (4-5 years): This program features a sequence of concepts and skills needed to prepare children to **"be ready to read"**

ABC's with ACE and Christi (5-6 year olds): This is a multisensory, phonetics **'Learning-to-Read'** program designed to prepare a student for the ACE self-instructional PACE program.

Grade 1-12: Students progress at their own pace, without pressure to keep up with a group, ensuring mastery of subject concepts before advancing to the next level. Goal-setting and individual instruction give students a proven edge at higher levels of education. Students can then join institutions of higher learning both here in Uganda, and abroad.

4. **Extra-Curricular Programs:**

Students have a variety of clubs they engage in to build their self-esteem, competitiveness and confidence. They include: Swimming, cookery, crotchet, ballet, music, table tennis, volley ball, football.

Photos to be included

5. **Inquiry Section:**

Have a question for us? (Ask us about our Diagnostic Test, switching from other curricula, exit routes etc)

Name

Phone

Email:

blank section for the question

Preferred mode of communication: call, Whatsapp or email? **(Put check boxes for them to choose)**
